We are Exclusive Factory Direct Manufacturers'
Representatives for Following Companies in
N.C., S.C. and VA (unless otherwise noted)

Magnetic Separator, X-Ray, Vibratory Feeders & Screening, Bin Vibrators, Metal Detection, Magnamation Equipment & Minerals & Ore Beneficiation Equipment. Providing Highest Quality Erium® Rare Earth which automatically removes large and small pieces of iron contaminants from material processing lines. (North Carolina and Virginia only)

Crushers, Conveyors, Shredders, Grinders, Roller and Hammer Mills. New Low RPM Grinder for Wood, Pallets, Plastics, etc.

Bin Activators, Volumetric Screw Feeders, Volumetric Belt Feeders, Continuous Mixer, Bulk Bag Unloader, and Storage Bins and Hoppers.

Columbian TecTank™ manufacturers a wide variety of bolted and welded silos providing dry bulk storage applications for the chemical, petrochemical, mineral, food, grain and plastics industries. Designed to meet your specified codes and recognized standards. (North Carolina and Virginia only)

World leader in the design and manufacture of bulk handling equipment and custom-engineered and integrated plant-wide systems that transport, discharge, fill, weigh, blend, deliver and/or feed a broad range of powder and bulk solid materials. (Virginia only)

Dynamic weighing, feeding, controls and environmental solutions serving the Food, Plastics, Cement, Mining, Steel & Paper Industries – Since 1908.

ACS Rotary Airlock Valve/Feeders are ideally suited for pressure or vacuum pneumatic conveying systems. Rugged heavy duty design with a unique shaft seal design (less maintenance). Machined close tolerance to maximize performance.

Dense Phase Pneumatic Conveying Systems and Vacuum Conveying Systems. Complete systems can include weighing, batching, blending, lump breaking, mixing, storage, and master control equipment.

Complete dust collection equipment – ISO 9000 Certified, Cartridge Dust Collectors, Small Nuisance Dust Filters, Cyclones, Pulse Jet Filters.

Pollution and dust control equipment. Fabric and cartridge filters, rotary airlocks, fans. Pulse Jet, and Reversed Cleaning Dust Filters.

EXPERIENCED IN QUALITY INDUSTRIAL PROCESS EQUIPMENT SINCE 1947

.... Continuation

Permanent and portable Industrial Central Vacuum Systems and components for plant housekeeping or material conveying.

VENTILEX manufactures the finest Fluid Bed Dryer equipment available anywhere. Known for their high efficiency and low cost to operate.

B. W. SINCLAIR, INC.

Quality Bulk Material Handling Equipment and services, including screw conveyors, and feeders, belt conveyors and feeders, bucket elevators, flexible side wall conveyors, flat gate valves, diverters, surge hoppers, live bin bottoms, specialty fabricated equipment and engineering services for the bulk solids industry.

Manufacturing, Engineering & Service Excellence of Industrial, Centrifugal & High Pressure Fans & Blowers. Standard and custom designs.

Engineering and Manufacturing firm specializing in the design and supply of pneumatic and mechanical handling of ash systems for the burning of coal, agricultural waste, wood waste, tires and mixed fuels. (Virginia only)

Shredding technology – Innovation in size reduction with state-of-the-art, future-oriented technological solutions for every problem. They will get it down to size – whatever it is, from wood, paper & cardboard, plastics, rubber & tires, metal, waste, organic materials, hazardous substances, document and data destruction, electronic equipment and household appliances, etc.

Efficient Quality Assured Centrifugal Sifters and Powder Processing Equipment & Systems. Economical Size Reduction with the Gericke Nibbler. Powder dispersion and induction equipment.

Rotary Plug Valves – Provides a continuous, online, real time reading of the density of powder as it is fed into your mixture. Compact and light weight while providing dependable, long term, measured, accurate and repeatable feed control. (North Carolina and Virginia only)

Manufacturer of couplings, tube and pipe bends, fittings, diverter valves, slide gates and conveying components for pneumatic conveying, vacuum and bulk handling systems. Servicing the plastics, food and chemical industries.
